Retrofit or New Developments. Lighting. Heating. Security.

NODE

An innovative offering from JSJ Smart Homes

Smart Homes
Why all the fuss?

Rational

Energy Monitoring & Saving

Remote Control

Threat Warnings

Adjustable to individual needs

Emotional

Greener Living

Comfort & Convenience

Feeling Secure

Prestige

It's Cool

Get a Fully Featured Smart Home

Automate your **lighting** using your existing switches and facades for maximum comfort

Save energy with **hot water** and **central heating** automation

Feel safe and **secure** with sensors and door-contacts to let you know who's in and who's out

Save more money on your bill with **energy monitoring** on all your major appliances

Simplicity without Compromising Quality

Plug & Play

We ship your fully customised smart-home ready to be installed by any electrician. It will work as designed, as soon as you turn it on

Your Same Home, Just Smarter!

We fit tiny, easy-to-install devices behind your existing switches. No ugly alien-switches!

We also supply a discrete, secure, home server.
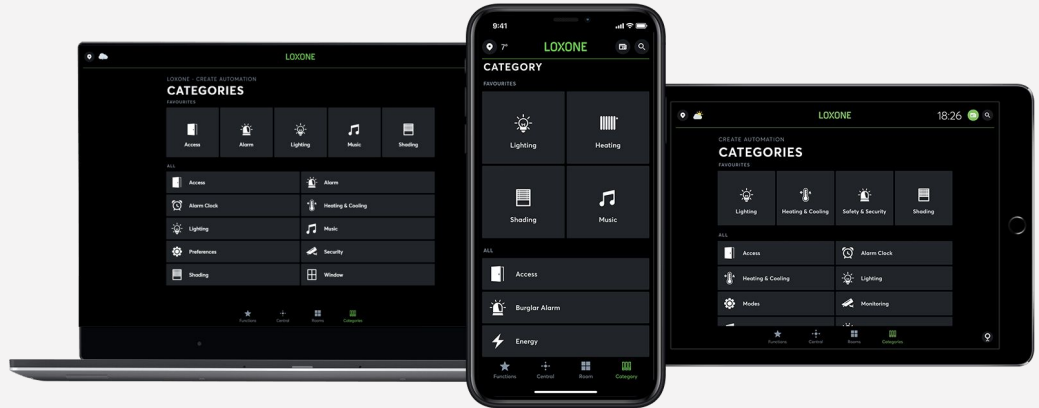

The World's Best App

Loxone

Loxone is the most advanced home automation system

Use one app for everything

We said we didn't compromise on quality!

Includes free updates

I Bet You Thought This Was Expensive!

...but it's cheaper than a MacBook Pro.
