

We Do Loxone, Lutron, Control 4 & KNX

Prepared for: James Bond

3 Bed, 2 Reception in NW10

Date: 24/10/2023

All Wiring Included, Smart & Traditional

Meet the team: jsjelec.com/team

Our Vision

In 2009 JSJ was birthed out of frustration with the expense and complication associated with Home Automation. Our vision is to give homes a more affordable, safe & yet highly intelligent solution by working closely with our partners at Loxone. Our vision has and will always be to bring all the functional aspects of the home into 1 place, from Security and Lighting, right through to Fire Safety.

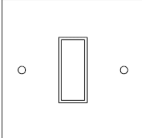

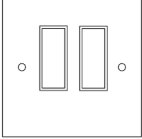

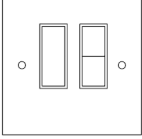

Our Mission

It is our mission to be the technology catalyst for the building industry by using 1 platform to control multiple aspects of the home. JSJ are passionate and committed to making Home Automation affordable and accessible for everyone. We are inspired and driven to find ways that can provide the highest levels of comfort, convenience, fun and peace of mind.

CEDIA®

QTY	UNIT PRICE	DESCRIPTION	O&M DESCRIPTION
LIGHTING: £4230.91			
6	£0.00	 <p>Dimmable circuit - Individual dimmed circuits required. There is 1 dimmer module to every 4 circuits. Cost shown here is the average cost per output, please see dependencies for more details. 1 dimmer output controls 1 circuit, for example a bedroom with 6 downlights is classified as 1 circuit.</p>	<p>In contrast to conventional lighting which is mechanically controlled, these dimmer outputs are electronically controlled so they are configurable by you as the user in an instant. These dimmers work with virtually any light fittings. Good quality LED bulbs recommended for the best dimming curve.</p>
15	£0.00	 <p>Relay - Lighting - Individual relays required. There is 1 module to every 14 circuits. Cost shown here is the average cost per output, please see dependencies for more details. 1 relay controls 1 circuit, for example a bathroom with 4 downlights is classified as 1 circuit.</p>	<p>In contrast to conventional lighting which is mechanically controlled, these relays are electronically controlled so they are configurable by you as the user in an instant. These relays works with any fittings even existing chandeliers etc,</p>
5	£22.52	 <p>1 switch, 2 position - Typical budget allowed for a premium switch, use any switch, from any manufacturer in many finishes: E.g Brushed SS, White Metal, etc. Typical use is lights & all off function, e.g at Entrance switch</p>	<p>Tap button once to scroll through lighting scenes, double tap middle to turn off room. At the main entrance & master bedroom switch, hold down for 3 secs to shutdown the entire house. Triple tap switch in the main entrance to arm the alarm which in turn will shut down the entire house.</p>
2	£31.79	 <p>2 switches, 2 position - Typical budget for premium switch, use any switch, from any manufacturer in many finishes: E.g Brushed SS, White Metal, etc. Typical use is light control multiple areas from one point</p>	<p>Tap button once to scroll through lighting scenes, double tap middle to turn off room. At the main entrance & master bedroom switch, hold down for 3 secs to shutdown the entire house. Triple tap switch in the main entrance to arm the alarm which in turn will shut down the entire house.</p>
4	£40.48	 <p>2 switches, 2 & 3 position - Typical budget for a contemporary toggle switch switch, use any switch, from any manufacturer in many finishes: E.g Brushed SS, White Metal, etc. Typical use is lights & multiple blinds/window control</p>	<p>Tap up/down button to control blinds/curtains up/down respectively.</p>
11	£80.26	 <p>6 Digital Inputs - The Nano DI Tree fits easily into any back box - making it easier to use third-party switches and sensors but leveraging the Loxone Tree network to reduce cabling</p>	---
1	£3,010.00	 <p>Associated labour on a price per point basis</p>	---

HEATING & VENTILATION: £2288.67

	11	£8.60	Temperature Zone - Embedded sensor, allows any switch to become a thermostat	Used as the thermostat in the respective room/zone. These temp sensors are embedded in every light switch and provide temperature readings in each room, hence reducing wall clutter. Control each room independantly from your Loxone app or wall station if requested.
	2	£12.01	Temperature sensor - Floor - Monitor & protect the floor with a probe per zone. We always recommend that the sensor is fit inside a conduit to protect the sensor and to ease retrieval if required.	Used as the temperature sensors in the floor to ensure your floor temp does not exceed 38 degrees. In the event this happens the heating in that zone will be stopped. In bathrooms where there are no switches/sensors inside the bathroom we will use the ambient temperature of the floor to control that Zone.
	9	£0.00	Relay - Radiator - Individual relay control for 1 zone, 1 electric thermostatic radiator valve per radiator. Typically triggered via timer, temperature and/or presence	---
	2	£0.00	Relay - Towel Rail - Individual relay control. Typically triggered via timer, temperature and/or presence	---
	4	£0.00	Relay - Extractor fan control - Individual relays required. There is 1 module to every 8 circuits. Cost shown here is the average cost per output, please see dependencies for more details.	Triggers after 2 minutes of presence in a bathroom or increased humidity above 65%
	1	£0.00	Boiler Wiring Centre - Zone Valves & Power to Panel - Individual relay control for x2 2/3 port valves alongside feed back to panel to ensure all heating is on 1 circuit. Typically triggered via 1 more zone demand	---
	2	£0.00	Power Supply Heating/Manifolds - Power Supply to all Manifolds	---

1

£2,170.00

Associated labour on a price per point basis

SECURITY: £232.66

1

£162.66

Dahua CCTV Camera - This camera comes in many shades, sizes and form factors.
Choice of a dark grey colour or white.

AI is used differentiate between a human and any animal in your garden after hours. Also, vehicle detection, camera masking detection and trip wire detection will be setup for granular security. Your system is on continuous recording and in the event of any of the above alarm triggers, a notification with a recoding of the event time frame will be given to you via a pop up instantly. Direct App link from Loxone to Dahua's DMSS app for CCTV

1

£70.00

Associated labour on a price per point basis

ACCESS CONTROL: £70

1

£0.00

Relay - Door Release - Individual relays required. Typically triggered via a fob, keypad, button press or voice

1

£70.00

Associated labour on a price per point basis

GENERAL AUTOMATION: £1059.93

6

£106.66

Flush Mounted Presence Sensor - Used to detect motion and brightness. As one of the most important sensors in the smart home, it provides information for useful features like alarms, lighting and energy saving. Comes in black or white.

Rooms with presence detection. When you walk into a room, the light will turn on for a minimum of 5 minutes (TH) and will remain on while there is still presence detected. If lights are manually switched on, after 30 mins (MT) of no motion (absence scene), the lights will automatically switch off, this is set to 120 mins in the Kitchen and Living room. If lights are manually turned off, motion detection will be disabled for 5 minutes (Ti). There will be 2 presence moods per

1

£420.00

Associated labour on a price per point basis

DATA: £1051.94

5

£29.99

TV point (3 Data & 1 Coax) - Euro module insert only, typically 1 or 2 cables will be spare for future expansion

3

£114.00

Ubiquiti U6 Lite WiFi Access Point - Used to extend the WiFi in your home into 1 seamless large & robust network

1

£560.00

Associated labour on a price per point basis

AUDIO & VISUAL: £4476.41

14

£125.66

Quadral In-Ceiling 7 Speaker - Wide sound radiation pattern, which means no matter where you are in the room, the sound is everywhere, exceptionally balanced and clear. Designed specifically for use with the Loxone Audioserver. Product dimensions: 232.2 x 95.1mm. Cut out size: 203mm. Installation depth: 91.7mm

7

£248.16

Stereo Extension - Each Stereo Extension adds 2 more amplifier outputs to the Audioserver - giving you a scaleable audio solution.

1

£980.00

Associated labour on a price per point basis

WEATHER, SHADING & MOTORISED APPLIANCES: £350

5

£0.00

Relay - 230V Blinds - Individual relays required. Typically triggered via a button press, weather, time of day, sunshine direction and voice

1

£350.00

Associated labour on a price per point basis

POWER & GENERAL EQUIPMENT: £8333.76

35

£39.60

Double sockets with USB's - With the average home now containing a multitude of smart phones, tablets and other devices, there's never been more need for USB ports. Available in a variety of finishes by Schneider

2

£72.48

Shaver - Dual Voltage: 115v / 230v, available in a variety of finishes by Schneider

2

£80.40

Extractor Fan - iCON stylish extractor fan range is aesthetically designed low energy fans with a choice of interchangeable iCON modules and coloured covers to match your room and needs.

47

£36.00

Downlights - Astro minima recessed or trimless light fittings, including LED bulbs with 50,000 hours lifespan. Come in warm white or cool white at various light intensities

10

£12.00

Pendant - MK Gloss White Pendant set (L)230mm, can be changed in the future to the Chandelier of your choice

1

£36.00

External flood lights/Fluorescent - Budget proposal only for external LED flood light.

1

£598.80

Schneider DB - Consumer unit for the entire property

2

£45.60

External socket - Weatherproof and dust-tight 13A socket. Manufactured from robust, impact-resistant polycarbonate with multiple gland entry positions. Double pole switching.

1

£66.00

Kitchen Grid Switch - Isolation for all your kitchen appliances in 1 discrete place, out of site, out of mind

8

£6.00

Fused Spur/Socket (Hidden) - Fused connection unit for any fixed appliances

1	£3,990.00	Associated labour on a price per point basis	---
---	-----------	--	-----

AUTOMATION EQUIPMENT & PANELS + SUNDRIES: £7538.45

1	£642.05	Miniserver Gen 2 - The brain of your Loxone system and can look after everything around the house, from simple lighting to intelligent zoned heating control
---	---------	--

2	£451.97	Dimmer Extensions - With the Loxone Dimmer Extension you can dim all types of lights including LEDs. Simple!
---	---------	--

3	£330.53	Relay Extensions (+14 Relays) - Expand your Loxone system with 14 hefty 16A relays to switch even the biggest loads with ease.
---	---------	--

2	£181.63	1 Wire - Use 1-Wire sensors as part of your Loxone system as they are very cost effective for installations with large numbers of sensors
---	---------	---

1	£67.58	24V Power Supply (4.2A) - DIN rail mounted power supply from TDK-Lambda
---	--------	---

1	£157.34	10A Power Supply - DIN rail mounted power supply from TDK-Lambda
---	---------	--

	1	£5.99	MCB - For independant isolation of individual circuits. Better segregation of circuits lead to minimum disruption in the event of a fault
	6	£58.61	RCBO - RCBO for segregated additonal protection
	1	£27.08	100a Isolator - For opening and closing circuits under load. For disconnection of on-load electrical circuits already protected against overloads and short-circuits
	1	£550.00	5 Din Rail Automation Panel - Elegant panel hand crafted by Future Automation - Product Dimensions: 1125mm (44.3") x 690mm (27.2") x 141.5mm (5.6")
	1	£100.00	Prefab Panel Cabling - Internal cable used in the building of your Automation panel
	1	£215.42	3 Port Terminal For 3 Core + CPC Cable (50 PCS) - 3 Core & Earth Terminal, perfect for connecting blinds, curtain or garage door motors
	1	£115.10	Push In Terminal Block, Twin + CPC (50 PCS) - Twin & Earth Terminal for 230V circuits
	1	£220.71	Push In Terminal Block 8 X 4, Interconnected (20 PCS) - 8 Layer Interconnected Terminal Block, perfect for 24V distribution & 1-Wire

1

£209.09

Push In Terminal Block 8 X 4, Separated (20 PCS) - 8 Layer Terminal Block, perfect for connecting sensors

1

£495.26

Audioserver - Flexible audio solution for any building, compact form factor with impressive performance and containing 4 amplifier outputs.

1

£2,122.40

1st fix cable infrastructure - Estimate for structured cabling. Can be supplied by others.

1

£0.00

All materials required for your smart system, this includes items for housing any kit, power supplies and any associated sundries

RACK EQUIPMENT: £2054.97

1

£574.95

Draytek Network Switch 24 Port POE (P2280X) - The VigorSwitch P2280x is a high performance L2+ managed Gigabit ethernet switch. With 24 PoE+ (Power over Ethernet) RJ-45 LAN ports and 4 10 Gigabit ethernet SFP+ ports for high bandwidth uplinks to servers, network attached storage and switches.

1

£590.00

Sanus CFR Series Enclosed Rack 15U - 600 X 600 X 15U Rack for housing all Network & AV equipment

1

£297.56

Draytek Router - DrayTek Routers provide business-grade features including VPN, firewall, content filtering, and bandwidth management, are an integrated network solution for home and business

1

£102.00

Rack roof fans - Ideal for all floorstanding general purpose and server-style cabinets and enclosures, up to 1000mm in cabinet depth. Keeps all your networks and AV equipment cool

2

£46.80

6 way PDU - Rack Power Distribution Unit with BS 1363 UK Sockets and UK Plug Input - comes with surge Protection inbuilt

3

£6.00

1U Blank Plate - 1U blank plate. For use in all types of standard rack/server cabinets for aesthetics

2

£18.00

1U Brush Plate - 1U Brush Strip cable management panel. For use in all types of standard rack/server cabinets

1

£342.86

Dahua NVR - Video recorder connected to your network that records video footage from the IP cameras also connected to that network.

1

£0.00

All materials required for your network and/or and AV equipment.

SPECIALIST LABOUR

DESCRIPTION

PRICE

LABOUR DESCRIPTION

OPTIONAL 1 YEAR CLIENT CARE PACKAGE (GOLD)

£839.88

The maintenance cost proposal is largely based on response time and the degree of physical support available. Irrespective of the size/complexity of your project our prices are designed to fit all needs and budgets. Response times outside our care packages are typically 10 – 20 working days. See more here: <https://jsjelec.com/jsj-client-care-package-signup>

INITIAL PROJECT DESIGN

£2,072.70

Project design is an early phase of the project where the project's key features are assessed to ensure integration with the rest of the property.

PROJECT MANAGEMENT

£1,470.00

Communicate with all trades to achieve all project goals within the given constraints to facilitate the process and ensuring that primary constraints are scope, time, and budget.

SITE VISITS (OVERSEEING INSTALLERS)

£900.00

Time required to ensure that things are progressing onsite as expected.

RACK - (PREFABRICATION OFF SITE)

£1,017.83

Your entire network will be prebuilt and configured in our workshop and go through our quality assurance process.

RACK - INSTALLATION (ON SITE)

£1,017.83

Installation of your Data/AV rack onsite, this is where all the network based CAT cables will connect into.

HA PANEL - PREFABRICATION (OFF SITE)

£2,940.00

Your entire home automation panel which is the brain for your home will be prebuilt and configured in our workshop within a controlled environment. All peripheral items will also be setup offsite to ensure time on site is minimised and hence controlled

HA PANEL - INSTALLATION - (ON SITE)

£2,425.50

Installation of your home automation panel onsite, essentially connecting the backbone infrastructure cabling of the house into your Loxone panel.

PROGRAMING &
COMMISSIONING

£1,470.00

Planning, documenting, scheduling, adjusting and verifying to provide a facility that operates as a fully functional system per the Owner's Project Requirements.

CLIENT TRAINING &
OWNERS MANUAL

£294.00

The operation and maintenance (O&M) manual is a detailed document containing the instructions to manage and maintain the smart home/property. It details what each component that you have to interact with can/will do

TESTING &
COMMISSIONING

£300.00

Functional checks: ensuring that all systems and components of the building management systems (BMS) are designed, installed and tested according to the operational requirements of the owner or final client.

Total = £46435.44 Ex VAT

1

£40.48 £40.48

2 switches, 2 & 3 position - Typical budget for a contemporary toggle switch, use any switch, from any manufacturer in many finishes: E.g Brushed SS, White Metal, etc. Typical use is lights & multiple blinds/window control

1

£80.26 £80.26

6 Digital Inputs - The Nano DI Tree fits easily into any back box - making it easier to use third-party switches and sensors but leveraging the Loxone Tree network to reduce cabling

HEATING & VENTILATION

1

£8.60 £8.60

Temperature Zone - Embedded sensor, allows any switch to become a thermostat

1

£0.00 £0.00

Relay - Radiator - Individual relay control for 1 zone, 1 electric thermostatic radiator valve per radiator. Typically triggered via timer, temperature and/or presence

DATA

1

£29.99 £29.99

TV point (3 Data & 1 Coax) - Euro module insert only, typically 1 or 2 cables will be spare for future expansion

AUDIO & VISUAL

2

£125.66

£251.33

Quadral In-Ceiling 7 Speaker - Wide sound radiation pattern, which means no matter where you are in the room, the sound is everywhere, exceptionally balanced and clear. Designed specifically for use with the Loxone Audioserver. Product dimensions: 232.2 x 95.1mm. Cut out size: 203mm. Installation depth: 91.7mm

1

£248.16

£248.16

Stereo Extension - Each Stereo Extension adds 2 more amplifier outputs to the Audioserver - giving you a scaleable audio solution.

WEATHER, SHADING & MOTORISED APPLIANCES

1

£0.00

£0.00

Relay - 230V Blinds - Individual relays required. Typically triggered via a button press, weather, time of day, sunshine direction and voice

POWER & GENERAL EQUIPMENT

4

£39.60

£158.40

Double sockets with USB's - With the average home now containing a multitude of smart phones, tablets and other devices, there's never been more need for USB ports. Available in a variety of finishes by Schneider

6

£36.00

£216.00

Downlights - Astro minima recessed or trimless light fittings, including LED bulbs with 50,000 hours lifespan. Come in warm white or cool white at various light intensities

2

£12.00

£24.00

Pendant - MK Gloss White Pendant set (L)230mm, can be changed in the future to the Chandelier of your choice

Bedroom 3: £1,057.21

LIGHTING

1

£0.00

£0.00

Dimmable circuit - Individual dimmed circuits required. There is 1 dimmer module to every 4 circuits. Cost shown here is the average cost per output, please see dependencies for more details. 1 dimmer output controls 1 circuit, for example a bedroom with 6 downlights is classified as 1 circuit.

2

£0.00

£0.00

Relay - Lighting - Individual relays required. There is 1 module to every 14 circuits. Cost shown here is the average cost per output, please see dependencies for more details. 1 relay controls 1 circuit, for example a bathroom with 4 downlights is classified as 1 circuit.

1

£40.48

£40.48

2 switches, 2 & 3 position - Typical budget for a contemporary toggle switch, use any switch, from any manufacturer in many finishes: E.g Brushed SS, White Metal, etc. Typical use is lights & multiple blinds/window control

£115.10

£115.10

Push In Terminal Block, Twin + CPC (50 PCS) - Twin & Earth Terminal for 230V circuits

1

£220.71

£220.71

Push In Terminal Block 8 X 4, Interconnected (20 PCS) - 8 Layer Interconnected Terminal Block, perfect for 24V distribution & 1-Wire

1

£209.09

£209.09

Push In Terminal Block 8 X 4, Separated (20 PCS) - 8 Layer Terminal Block, perfect for connecting sensors

1

£495.26

£495.26

Audioserver - Flexible audio solution for any building, compact form factor with impressive performance and containing 4 amplifier outputs.

1

£2,122.40

£2,122.40

1st fix cable infrastructure - Estimate for structured cabling. Can be supplied by others.

RACK EQUIPMENT

1

£574.95

£574.95

Draytek Network Switch 24 Port POE (P2280X) - The VigorSwitch P2280x is a high performance L2+ managed Gigabit ethernet switch. With 24 PoE+ (Power over Ethernet) RJ-45 LAN ports and 4 10 Gigabit ethernet SFP+ ports for high bandwidth uplinks to servers, network attached storage and switches.

1

£590.00

£590.00

Sanus CFR Series Enclosed Rack 15U - 600 X 600 X 15U Rack for housing all Network & AV equipment

1

£297.56

£297.56

Draytek Router - DrayTek Routers provide business-grade features including VPN, firewall, content filtering, and bandwidth management, are an integrated network solution for home and business

1

£102.00

£102.00

Rack roof fans - Ideal for all floorstanding general purpose and server-style cabinets and enclosures, up to 1000mm in cabinet depth. Keeps all your networks and AV equipment cool

2

£46.80

£93.60

6 way PDU - Rack Power Distribution Unit with BS 1363 UK Sockets and UK Plug Input - comes with surge Protection inbuilt

	3	£6.00	£18.00	1U Blank Plate - 1U blank plate. For use in all types of standard rack/server cabinets for aesthetics
	2	£18.00	£36.00	1U Brush Plate - 1U Brush Strip cable management panel. For use in all types of standard rack/server cabinets
	1	£342.86	£342.86	Dahua NVR - Video recorder connected to your network that records video footage from the IP cameras also connected to that network.

SPECIALIST LABOUR

	DESCRIPTION	PRICE	LABOUR DESCRIPTION
	OPTIONAL 1 YEAR CLIENT CARE PACKAGE (GOLD)	£839.88	The maintenance cost proposal is largely based on response time and the degree of physical support available. Irrespective of the size/complexity of your project our prices are designed to fit all needs and budgets. Response times outside our care packages are typically 10 – 20 working days. See more here: https://jsjelec.com/jsj-client-care-package-signup
	INITIAL PROJECT DESIGN	£2,072.70	Project design is an early phase of the project where the project's key features are assessed to ensure integration with the rest of the property.
	PROJECT MANAGEMENT	£1,470.00	Communicate with all trades to achieve all project goals within the given constraints to facilitate the process and ensuring that primary constraints are scope, time, and budget.
	SITE VISITS (OVERSEEING INSTALLERS)	£900.00	Time required to ensure that things are progressing onsite as expected.

RACK - (PREFABRICATION OFF SITE)

£1,017.83

Your entire network will be prebuilt and configured in our workshop and go through our quality assurance process.

RACK - INSTALLATION (ON SITE)

£1,017.83

Installation of your Data/AV rack onsite, this is where all the network based CAT cables will connect into.

HA PANEL - PREFABRICATION (OFF SITE)

£2,940.00

Your entire home automation panel which is the brain for your home will be prebuilt and configured in our workshop within a controlled environment. All peripheral items will also be setup offsite to ensure time on site is minimised and hence controlled

HA PANEL - INSTALLATION - (ON SITE)

£2,425.50

Installation of your home automation panel onsite, essentially connecting the backbone infrastructure cabling of the house into your Loxone panel.

PROGRAMING & COMISSIONING

£1,470.00

Planning, documenting, scheduling, adjusting and verifying to provide a facility that operates as a fully functional system per the Owner's Project Requirements.

CLIENT TRAINING & OWNERS MANUAL

£294.00

The operation and maintenance (O&M) manual is a detailed document containing the instructions to manage and maintain the smart home/property. It details what each component that you have to interact with can/will do

TESTING & COMMISSIONING

£300.00

Functional checks: ensuring that all systems and components of the building management systems (BMS) are designed, installed and tested according to the operational requirements of the owner or final client.
